

August 24, 2020

Good Afternoon Everyone

Please be advised that the '**SUSPECTED OUTBREAK DUE TO ASYMPTOMATIC ESSENTIAL VISITOR**' has now been **declared over** effective August 24, 2020

Public Health advised the individual who tested positive (although not having any symptoms associated with COVID19) that the Positive test does not fit with the epidemiology of COVID and has been cleared of COVID-19. Retesting has been completed- with a NEGATIVE result.

We apologize for this inconvenience, but I want to assure all that we will continue to be conscientious in protecting residents, staff and essential visitors during these uncertain times.

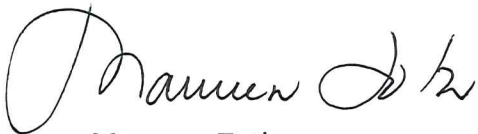

Daily screening and temperature recording of all staff and essential visitors as well as twice monthly COVID-19 testing continues to be our directive and means of surveillance to ensure the safety of those we serve.

Thank you to our dedicated staff who have been diligent in ensuring all infection prevention and control measures are adhered to and additional precautions are completed during such declared outbreaks.

We look forward to resuming some normalcy with opening up our Hairdressing Salon and resuming in person visiting. Please contact Krista Voisin Goll to arrange a visit with your loved one at [activationmanager@saintlukesplace.ca](mailto:activationmanager@saintlukesplace.ca) or at 519-658-5183 ext. 243

Thank you for your understanding

Regards,

Maureen Toth  
Long Term Care Administrator
